Bus coupler 3 insert with connection for external sensor for KNX

Specification	Order No.	Packing unit	PS	EAN
	2009 00	1/5		4010337082194

Features

- The bus coupler 3 establishes the connection between the KNX system and an application module for KNX.
- The combination of the bus coupler 3 and an application module produces a functional unit.
- In the ETS project, this unit is configured in the form of the application program of the application module.
- A temperature sensor can additionally be connected to the bus coupler 3 with external sensor. This enables a room temperature controller to record the temperature at an additional measuring point.

Technical data

KNX medium:	TP256
KNX connection:	Connection and junction terminal
Protection class:	III
Installation depth:	25 mm
Ambient temperature:	-25 °C to +55 °C

Notes

- The remote sensor functionsonlyin combination with a pushbutton sensor 3 Plus.
